Bring Your Vision to Life with Custom Sublimation on Aluminium Sheets

At Link Decorative Design, we go beyond traditional decoration methods. Using an advanced sublimation process, we offer a unique way to apply high-resolution images to metal surfaces—perfect for façades, walls, and custom furniture. Here's how our process works and why it's ideal for creating long-lasting, impactful designs.

YOUR IMAGE, OUR EXPERTISE:

Imagine the power of transforming any image—whether it's a brand logo, a personal photo, or intricate artwork—into a high-quality, durable graphic on aluminium sheets. With Link Decorative Design's sublimation services, your ideas aren't limited to paper. They can become part of the architecture, furniture, or decor in a stunning, durable format.

METICULOUS PROCESS FOR SUPERIOR RESULTS

- We start with **cutting aluminum sheets** to the exact specifications of your design layout, ensuring a perfect fit and seamless look.
- **Pre-treatment** follows, preparing the aluminium to ensure the highest adhesion for the powder coating.
- Our **special powder coating** process involves two coats, creating a smooth, vibrant base layer that ensures the colors of your image truly pop. The coating also protects the surface, making it resistant to weathering and fading.
- Next, we digitally print your image at high resolution, capturing all the detail and vibrancy on a specialized heat-transfer paper..

WHY CHOOSE SUBLIMATION FOR METAL SURFACES?:

Custom sublimation isn't just about decoration; it's about creating lasting art on functional surfaces. This technique ensures your design remains vibrant, weather-resistant, and able to withstand both indoor and outdoor environments.

ENDLESS CREATIVE POSSIBILITIES

Whether you're an architect, designer, or brand manager, our sublimation services let you bring high-quality custom graphics to any metal surface. With Link Decorative Design's custom sublimation services, you can transform metal into a personalized masterpiece. From modern architectural accents to custom signage, the possibilities are as limitless as your creativity.
